EXPERIENCE

Walmart Global Tech India
Software Engineer - I
📅 2021 - Ongoing   📍 Bangalore, India

American subsidiary of Walmart.

- As a part of the Store Systems Mobile Platform team, I created the backend services for the Me@Walmart application to facilitate operations performed by a Walmart store associate
- Tech Stack: Java, Spring Boot, CosmosDB, Cassandra, Kafka, MySQL

PwC India
Summer Intern
📅 05/2019 - 07/2019   📍 Kolkata, India

Second largest professional services network in the world.

- I worked on client projects utilizing Computer Vision, Machine Learning and Web Development
- Tech Stack: Python, OpenCV, Flask, Tesseract

PROJECTS

TwitHub
📅 2022   📍 TwitHub.xyz

TwitHub is a web application using which developers and software engineers can set realtime Twitter Banners which automatically update every day.

- Design: Figma
- Frontend: React
- Backend: NodeJS, Express, Puppeteer
- Auth: Firebase

Game To Debug
📅 2019

Game To Debug is an online visual debugger that lets us track the changes we make in our C++ code and helps us visualize the changing values of the different variables after each line in our code.

- Since competitive coding was a big part of our college lives and at times, it became very difficult to debug our code and visualize the changes, we made an app to assist us.
- Tech Stack used: Python, GDB, HTML/CSS, JavaScript, PHP.

SKILLS

Backend

`Java` `Spring Boot` `Node.js`

`MongoDB` `SQL` `Kafka` `Cassadra`

Frontend

`HTML` `CSS` `React` `Next.js`

`React Native` `Javascript` `Figma`

EDUCATION

Birla Institute of Technology, Mesra
B.E. Computer Sciene and Engineering
📅 2017 - 2021   📍 Ranchi

GPA **8.86** / 10

Carmel Junior College
High School
📅 2002 - 2017   📍 Jamshedpur

GPA **98** / 100

ACHIEVEMENTS

🏅 **ISC Board Jharkhand State Topper 2017**

</> **15th position all over India in HackABit'18, the largest hackathon of Eastern India**
